HAVE A FIRM HOLD

Moving Pictures Continue More in Demand Than Ever.

Some Interesting Figures Forwarded by American Consuls in Europe—Tastes of Peoples Are Shown to Vary Widely.

American consuls in European and other foreign countries have recently been sending reports to Washington on the motion picture industry, these reports showing that east and west, north and south, the "movies" now hold sway and are playing a star role in the amusements of the nations.

From many places comes the consular declaration that the attractions at the film play theaters are not merely one of the chief amusements, but the chief amusement. From Nuremberg, Germany, for instance, Consul George Nicolas left writes that the moving picture "has advanced to first place among the people of Bavaria." In Munich there are 32 theaters, with a total seating capacity of 4,650, and a yearly sale of 3,000,000 tickets, while in Nuremberg there are 14 theaters, with a seating capacity of 3,400. The other large Bavarian cities all have numerous theaters.

In regard to comparison with other amusements, Consul George N. left writes that in the city of Hof the total attendance at places of public amusement for one year was 209,551. Of this total, 138,610 was attendance at film shows. Attendances at other amusements were: Theaters, 38,000; concerts, 8,500; public dances, 4,000; circuses, 7,000. In the city of Puerth in one month the attendance at the "movies" was 14,000, while for that month and the two preceding months the attendance at all other public places of amusement, including ordinary theaters, was but 12,600.

From Great Britain come reports that, while the motion-picture theaters are constantly increasing their hold on the public, American films of cowboy life—well received not long ago—are beginning to lose popularity.

HIS ROLE IS COMEDY LEAD

Few of the Photoplay Stars Are More Popular Than Clever Mr. Eddie Redway.

Eddie Redway, who is now playing leading comedy roles, was for a year connected with Arthur Roberts at the Lyric theater, London, England, where he played in "The Modern Don Quixote" and later under the management of Mr. George Edward, in the famous comedy "The Messenger Boy."

Eddie Redway.

Mr. Redway is well known in Scotland, Ireland and Wales. It was during a visit to Chicago that Mr. Redway was engaged to play leading roles and much is expected of him, too, and much he is going to give us and the photoplay public—the laughing kind—that you will be pleased to see.

Specialist on Railroad Photoplays. J. P. McGowan, the producer, has become known as a specialist on railroad photoplays. He has produced and is still producing them from every angle, and the members of his company are almost as well versed in railroad lore as he is himself. Helen Holmes, his leading woman, declares she almost lives on, in, around, or under trains.

To Produce "Fantasma." An eastern company has acquired the filming rights to the Hanlon brothers' extravaganza, "Fantasma." The fantastic effects and the trick scenes are said to lend themselves to perfect photographic reproduction.

No Inducement. Circe—it seems that the tango craze is passing. Terpsichore—Of course. Who wants to dance the old thing now? Why, even the clergy have decided that there is nothing at all improper about it!—Judge.

Essentials First. "What would you do when first employed to bring an action?" asked an examiner of a young candidate for the legal profession. "Ask for a retaining fee," was the prompt reply. He passed.—Livingston Lance.

Nearly Smothered.

Chandler, N. C.—Mrs. Augusta Lomax, of this place writes: "I had smothering spells every day, so bad I expected death at any time. I could not sit up in bed, I suffered from womanly troubles. My nerves were unstrung. I had almost given up all hope of ever being better. I tried Cardui, and it did me more good than anything I had ever taken. I am better now than I ever expected to be." Thousands of ladies have written similar letters, telling of the merits of Cardui. It relieved their headache, backache and misery, just as it relieved yours, if you will let it. Try Cardui.

The New Agriculture.

The term "new agriculture" applies to the farming methods that have been made possible within the past twenty years or so by the advance of science. "Dry farming," the "inoculation" of soils, the amazing results of irrigation and of experimentation at the state and government agricultural stations; "intensive" farming, deep plowing, seed selection, crop rotation and the application of nitrogenous elements have completely revolutionized the farmers' art, giving them returns that were not dreamed of a few decades ago.

From "Poor Richard."

When you incline to have new clothes, look first well over the old ones, and see if you cannot shift with them another year, either by scouring, mending or even patching, if necessary. Remember a patch on your coat and money in your pocket is better and more creditable than a writ on your back and no money to take it off.

Enamelware Cement.

For mending enamelware pots and pans where a hole has been made or the enamel has been chipped off, the following is effective: Equal parts of soft putty, finely sifted coal ashes and sifted table salt. Mix all together and pack it into the hole. Place the mended article on the stove with a little water in it until the cement gets hard. It never fails, and it becomes as hard as the enamel itself.
